

XD Rake Channel

Roofglory designed a new rake channel (June 2017) called **XD RAKE CHANNEL**.

This product will replace both the Shake XD Rake Channel and the Shingle XD Rake Channel.

The transition to the new **XD Rake Channel** will be implemented in August 2017. The transition could affect inventories and installations if special care is not taken.

All full pallets will be marked as: “**DO NOT MIX**”

The new **XD Rake Channel** design has a height of 1-1/4” to accommodate both the Shake XD and Shingle XD panels.

Note: Special care must be taken not to mix inventories of the new XD Rake Channel and the old Shake XD and Shingle XD Rake Channels. Because the Rake Channel height is different, the products will not match up on an installation.

Please direct questions about this change to your Roofglory Regional Manager.
